

✓ Accurate answers

CogniVis is effective. It doesn't make things up - it answers based solely on the information provided. When the answers aren't in the materials, CogniVis doesn't take any chances - it redirects difficult questions to a human.

✓ Multiple channels

Facebook, Messenger, Instagram, WhatsApp, email, and website- all automated in one place. You can also respond to reviews on Booking, TripAdvisor, Travelist, Google Maps, and other portals.

✓ Simple integration

Zero new tasks – no need to dig through configuration. Implementation doesn't change your workflow – we handle the configuration, and you continue as usual.

Automate your Hotel with AI

😊 Very spacious, well-equipped apartment in a great location in the center of Gdynia, right next to a supermarket and many restaurants, 10 minutes walk to the sea, **clear and transparent instructions** for living. We will gladly come back here!

😢 1 **frying pan** needs to be replaced from the kitchen equipment as it was damaged and could not be used for cooking, the **parking barrier** is inoperable (constantly mechanically damaged), but these are just minor issues.

Your property response

Thank you very much for sharing your feedback!

😊 The spacious and well-equipped apartment in the center of Gdynia is our pride - we're **glad** that the location and instructions were **clear and convenient** for you.

🔍 The **frying pan** will be replaced **promptly** so that nothing disturbs future guests when using the kitchen.

🚚 Regarding the barrier gate - we have already ordered a technical service to ensure the issue with the mechanism does not happen again in the future.
